HIGHLIGHTS

NEW PARTNER

Welcome to the Team!

IT Akademija joined the CyberAgent project as a new partner on 16 July 2025, replacing HackerU. Operating since 2014, UAB IT Akademija is an IT training and consulting company **dedicated to strengthening digital competencies for individuals and organisations.** With expertise in cybersecurity, programming, digital literacy, and more, the company brings extensive experience from both private and public sector projects, strong international partnerships, and active membership in key business and technology associations. **IT Akademija takes over HackerU's obligations in the CyberAgent project and joins the project implementation activities.**

The company's expertise and network will be pivotal in achieving the CyberAgent project goals, fostering innovation in cybersecurity, and building a stronger network of cybersecurity professionals across Europe. Their contributions are expected to significantly enhance the consortium's mission.

[About](#)

CyberAgent Training: Empowering SMEs for a Safer Digital Future

Cyber threats are evolving fast, and so should our skills. The **CyberAgent Project** is getting ready to launch its **pilot phase** of a cutting-edge **cybersecurity training programme**, designed to empower **SME employees, students, and professionals** to become *cybersecurity change agents* in their organisations.

Developed through collaboration among **eight European partners**, this modular and flexible training framework includes **nine comprehensive modules** — from *Risk Management* and *Security Operations* to *Empowering Careers in Cybersecurity*, developed by the **Women4Cyber Foundation**.

- ✓ **Practical, hands-on learning** through simulations and real-world exercises
- ✓ **Multilingual and inclusive**, designed for HEI, VET, and SME learners
- ✓ **Flexible learning formats**, online, blended, and self-paced options

As the **piloting stage begins later this year**, participants across Europe will help shape the final version of the training, ensuring it meets real-world SME needs and strengthens digital resilience across sectors.

Workshop 4 Protecting SME Critical Infrastructure

European Cybersecurity Month Workshop

DR. VILIUS BENETIS
NRD Cyber Security

DR. ARZU KILITCI CALAYIR
Technologist Women

JORĖ BENDINSKAITĖ
Vilnius University

For **European Cybersecurity Month**, we're coming together to explore that question during CyberAgent Project's Workshop 4: **Protecting SME Critical Infrastructure**. Every organisation today depends on technology — and that makes cybersecurity everyone's business. Join us to learn how to keep your systems safe, your data protected, and your business resilient.

When: 28 October 2025 | 10:00–11:00 (CET)

Where: Online – link sent after registration

REGISTER

The **CyberAgent BoostCamp**, held in Kaunas from 23–25 September 2025, brought together educators, trainers, and cybersecurity experts from across Europe for three days of collaboration and innovation. Participants worked intensively to refine and validate the **CyberAgent training programme**, marking a major milestone as the project moves from design to implementation.
